Separate paging is given to this Part in order that it may be filed as a separate compilation

### PART III—SECTION 2

#### Notifications and Notices issued by the Patent Office relating to Patents and Designs

##### THE PATENT OFFICE Patents and Designs

Calcutta, the 3rd May 1958  
Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

17th April 1958

63761. Gay-Bell Corporation. Paperboard hogshead.

63762. Gay-Bell Corporation. Metal hogshead.

63763. The British Tabulating Machine Company Limited. Improvements in or relating to paper feeding devices. (6th May 1957).

63764. Bristol Laboratories Inc. Compositions for increasing efficiency of animal nurture.

63765. A. Nadai. Dispenser-applicator for liquid containers. (17th April 1957).

63766. Aluminium Laboratories Limited. Incorporation of metal pigments in coating compositions.

63767. R. Rummel. Method and device for carrying out metallurgical processes, particularly air refining processes. (18th April 1957).

63768. Chugai Seiyaku Kabushiki Kaisha. A method for the production of glucuronolactone from a polyuronide.

63769. R. B. Fuller. Geodesic building structure. (21st May 1957).

63770. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of producing semi-conductive electrode systems.

63771. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of producing semiconductor electrode systems.

63772. Ciba Limited. New Pharmaceutical compositions containing new pyrazole compounds. (Divisional date 6th February 1957).

63773. Ciba Limited. New cyanopyrazoles and process for their manufacture.

63774. American Screw Company. Extruding method and apparatus.

63775. Huttenwerk Oberhausen Aktiengesellschaft. Process for refining metals in a rotary drum furnace. (Addition to No. 61370).

63776. R. T. Hukki. An improvement in or relating to grinding.

18th April 1958

63777. Junta De Energia Nuclear. A process for the preparation of fluorides. (15th August 1957).

63778. Junta De Energia Nuclear. A process for the reduction and preparation of metal oxides. (15th August 1957).

63779. Sterling Engineering Company Limited. Improvements in or relating to automatic firearms. (30th April 1957).

63780. Imperial Chemical Industries Limited. Treatment of wool. (23rd April 1957).

63781. Recherches Chimiques S.A. Process for the manufacture of propellents with low temperature coefficients.

63782. W. R. Ames Company. Gate valve.

63783. Ciba Limited. A new active substance and process for its manufacture.

63784. E. M. Arthur. Improvements in hose or like clips.  
19th April 1958

63785. Deba Prasad Basu. Improvements in or relating to indicating mechanisms on a field which is moveable in respect of a datum line.

63786. C. Ohmes. Electrical installation and fittings.

63787. United Kingdom Atomic Energy Authority. Improvements in or relating to apparatus for the production of heavy hydrogen and the production of heavy water thereby. (24th April 1957).

63788. British Insulated Callender's Cables Limited. Improvements in or relating to reeling devices. (24th April 1957).

63789. Strategic-Udy Metallurgical and Chemical Processes, Ltd. Metallurgical process.

21st April 1958

63790. Ciba Limited. New esters and a process for their manufacture.

63791. Carter Products, Inc. Novel compounds and method of manufacture.

63792. United Kingdom Atomic Energy Authority. Extraction of thorium from aqueous solution. (10th May 1957).

63793. United Kingdom Atomic Energy Authority. Improvements in or relating to fuel for nuclear reactors.

63794. Imperial Chemical Industries Limited. Process for printing cellulosic textile materials. (Divisional date 16th April 1957).

63795. Connollys (Blackley) Limited. Improvements in the packaging of wire. (25th April 1957).

63796. Columbian Carbon Company. Rubber compounding.

63797. Dale Electric (Yorkshire) Limited. Improvements in or relating to cable drum cradles.

63798. The British Cotton Industry Research Association. Method and means for the automatic regulation of specified amounts of solids or liquids to a moving sheet of material. (25th April 1957).

22nd April 1958

63799. Raghunath Prasad Gupta and Chunni Lal Gupta. Charcoal briquetting.
63800. Imperial Chemical Industries Limited. New nitrogenous organic compounds. (26th April 1957).
63801. Imperial Chemical Industries Limited. New dyestuffs. (1st May 1957).
63802. American Cyanamid Company. Preparation of a stable orally administrable poliomyelitis vaccine.
63803. General Aniline & Film Corporation. Preparation of amides.
63804. J. S. Spevack. Isotope concentration system. (23rd April 1957).
63805. Casablancas High Draft Company Limited. Improvements in textile fibre drafting apparatus. (2nd May 1957).
63806. Union Carbide Corporation. Desulfurization of iron with calcium carbide using nitrogen afterblow.
63807. Colvilles Limited. Method of producing slag in fragmented form. (23rd April 1957).
63808. Elektro-Thermit G.m.b.H. A method of producing prefabricated moulds for the welding of work-pieces and apparatus therefor.
63809. Ciba Limited. A new ester and process for its manufacture.
63810. Robert Bosch G.m.b.H. Improvements in or relating to electrical generator regulating devices, especially for mechanically propelled vehicles.
63811. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Method of preparing glass fibres.
63812. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Preparation of alkaline silicates.
63813. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Improved method of preparing glass fibres.
63814. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and K. Ziegler. Catalysts for the production of linear high-molecular-weight polymers of alphaolefins and process for the polymerisation of alphaolefins with these catalysts.
63815. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of manufacturing electrically insulating panels having a conductive pattern and panels manufactured by such methods.
63816. Unilever Limited. Improvements relating to presses. (2nd May 1957).

23rd April 1958

63817. Esso Research and Engineering Company. Controlled availability fertilizer compositions.
63818. Olin Mathieson Chemical Corporation. Carbamic acid esters.
63819. Imperial Chemical Industries Limited. New phthalocyanine dyestuffs. (1st May 1957).
63820. Imperial Chemical Industries Limited. New thermoplastic moulding compositions. (8th May 1957).
63821. Imperial Chemical Industries Limited. Textile treatment process. (24th June 1957).
63822. Imperial Chemical Industries Limited. Improvements in and relating to the treatment of polymers. (31st May 1957).
63823. C. C. Wakefield & Company Limited. Improvements in or relating to lubricating compositions. (29th April 1957).
63824. Etablissements Clin-Byla Societe Anonyme. Substituted -naphthols and compositions containing the same.
63825. J. R. Geigy A.-G. Basic derivatives of azepines.
63826. Conveyancer Fork Trucks Limited. Improvements in fork lift truck drive.
63827. Whessoe Limited. Improvements in load supporting means.
63828. Whessoe Limited. Improvements in load supporting means.

63829. J. H. Fenner & Co. Limited. Improvements in or relating to production of power transmission and conveyor belting. (30th April 1957). (Addition to No. 53579).
63830. Commissariat A L'Energie Atomique. Improvements in methods of manufacturing porous barriers.
63831. Deutsche Gold Und Silber Schmelzdeanstalt Vormals Roessler. Process for the production of substituted triazines. (5th March 1958).
63832. General Electric Company. Improvements in or relating to "Compressor".
63833. Metropolitan-Vickers Electrical Company Limited. Improvements in and relating to capacitor voltage dividers. (29th April 1957).
63834. The British Drug Houses Limited. Organic compounds. (3rd May 1957).

**Alteration of Date**

60776. Ante-dated to 26th November 1956 under Section 5 of the Act.

**Applications Accepted**

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

57888. Council of Scientific And Industrial Research. Improvements in or relating to the production of hydroxy, alkoxy or aryloxy substituted aryl alkyl ketones. Accepted on 16th April 1958.

*By reacting phenol or phenol ether with an aliphatic acid using a mixture of phosphorus oxychloride and anhydrous zinc chloride.*

57926. C. L. Walsh. Improvements in or relating to the manufacture of cement and cementitious substances. Accepted on 18th April 1958.  
*Containing minor proportion of low temperature carbonaceous oil.*

57950. Shrimati Doris Mary Edwards. Device for making plastic seamless neckties. Accepted on 21st April 1958.

*Metal stencil comprising of two metal plates joined end to end and held together by cover-strap and countersunk screws so that plates when joined conform to shape and size of necktie.*

57976. The Dow Chemical Company. Improvements in or relating to stabilization of polyethylene. Accepted on 23rd April 1958.

*Comprising polythene and at least one antioxidant selected from the group consisting of norhydroguaiaretic acid propyl gallate and a 4, 4'-bis-2-alkyl phenol compound.*

57977. Olin Mathieson Chemical Corporation. Improvements in or relating to fastener driving tool and fastener assembly for use therein. Accepted on 22nd April 1958.

*Comprising a hollow holder adapted to be grasped in one hand, a fastener guiding element within forward portion of the holder, a plunger having a drive rod telescoped within rear portion of said holder.*

58627. Orr & Sembower, Inc. Improvements in or relating to boilers having a main fluid fuel burner and

- a pilot igniter unit communicating with a main combustion chamber. Accepted on 17th April 1958.
- Blowers for supplying air to main burner and pilot unit, separate means for supplying feed to main burner and pilot unit, means for controlling fuel, supplying means so that air and fuel are supplied to pilot unit independently of main burner, pilot unit including a tube with one end opening into combustion chamber, ignition means in the tube, and flame retention means in tube.
58636. Anciens Etablissements P. Destombes & Cie. Improvements in and relating to card-wire band for flexible card-clothing. Accepted on 17th April 1958.  
*A plurality of groups each comprising two zones covered with needles and one intermediate zone free from needles.*
58639. The English Electric Company Limited. Improvements relating to journal bearing lubricators. (21st October 1955). Accepted on 17th April 1958.  
*Absorbent wick means carried by a pivoted holder biased into engagement with the rotatable bearing.*
58641. Power Jets (Research & Development) Limited. Apparatus for the control of flow of ducted fluids. (21st October 1955). Accepted on 17th April 1958.  
*Comprising plurality vanes each pivotably about longitudinal axis and means controlling said pivoting upon variation of fluid velocity.*
58647. Pilkington Brothers Limited. Improvements relating to the manufacture of flat glass in continuous ribbon form. (18th October 1955). Accepted on 17th April 1958.  
*Wherein a fire finish is produced on both surfaces of the ribbon by immersion in a bath of molten metal inert to the glass.*
58663. United States Steel Corporation. Conductor roll and method of making the same. Accepted on 17th April 1958.  
*Comprising a steel shaft, barrel and support surrounded by cast copper casting, surrounded in turn by copper plating and a chrome plating.*
58666. Olin Mathieson Chemical Corporation. Heavy-metal salts of 2-mercaptopuridine-1-oxides and methods of preparing same. Accepted on 18th April 1958.  
*2-Mercaptopuridine 1-oxide or a water soluble salt thereof is interacted with a water.*
58691. The English Electric Company Limited. Improvements in and relating to air-break electric circuit breakers. (27th October 1955). Accepted on 19th April 1958.  
*Having main and arcing contact pairs in parallel and actuated by common mechanism, of positive locking means preventing movement of movable arcing contact in opening sense and released when main contacts reach during opening operation a separation sufficient to prevent restriking of an arc between them, the arcing contacts engaging at a second small separation of main contacts during closing operation of circuit breaker.*
58695. Societa Farmaceutici Italia. Process for preparing steroid hormone analogs substituted in the 4-position, having anabolic activity. (Addition to No. 57920). Accepted on 19th April 1958.  
*A 4, 5-epoxy steroid is reacted with mineral acid in an organic solvent*
58709. Phillips Petroleum Company. Novel process for polymerization of conjugated dienes and polymers so-produced. Accepted on 23rd April 1958.  
*Contacting monomeric diene with catalyst comprising (a) hydride or organo compound of one of metals Al, Ga, In, Tl, Be and (b) tri or tetra halide of one of metals Ti, Si, Th, Zr, Sn, Pb, Hf, Gr and Ce.*
58723. The English Electric Company Limited. Improvements relating to control apparatus for textile ring spinning and the like frame drives. (27th October 1955). Accepted on 23rd April 1958.  
*Rotation of ratchet wheel shaft of builder motion actuates linearly moving to operate speed-control switches.*
58724. The General Electric Company Limited. Improvements in or relating to the manufacture of metallic bodies. (1st November 1955). Accepted on 23rd April 1958.  
*Wherein a plurality of suitably shaped laminations are superimposed and brazed together to form the body.*
58773. The Norwich Pharmacal Company. Aqueous solutions and other compositions comprising stabilized nitrofurazone. (24th October 1956). Accepted on 19th April 1958.  
*Containing nitrofurazone and from about 0.0001 to about 0.01 per cent by weight of sodium or potassium dichromate.*
58898. Vereinigte Oesterreichische Eisen-und Stahlwerke Aktiengesellschaft. Process and apparatus for surface hardening steel articles. Accepted on 17th April 1958.  
*By preheating the work piece surface to a temperature lying above the  $Ac_1$  point in the range of 950–1160°, and keeping the work piece in a zone of incandescence.*
58977. United Plastics Industries, Inc. Improvements in producing embossed thermoplastic film and the like and apparatus therefor. Accepted on 18th April 1958.  
*Providing means to prevent leakage of air into embossing roller to which suction is applied from inside, along boundary of said film and roller.*
58999. Kyowa Hakko Kogyo Kabushiki Kaisha. Method of producing L-glutamic acid. Accepted on 22nd April 1958.  
*Biotin is added to the culture medium and the pH is adjusted to 6–9.*
59041. Ciba Limited. Manufacture of new piperazo-pyridazine compounds. Accepted on 17th April 1958.  
*By reacting a 3:4-dihalogen pyridazine with a secondary-tertiary ethylene diamine.*
59167. British Insulated Callender's Cables Limited. Improvements relating to junction boxes for electric cables. (20th December 1955). Accepted on 22nd April 1958.  
*Outer peripheral surface of the inner clamping member and the inner surface of a one-piece cylindrical casing has complementary profile, permitting in different angular settings, the casing to be passed over the inner clamping member or to form an abutment for the inner clamping member.*
59319. C. A. V. Limited. A mechanism having a clamping screw and a locking device therefor. (13th January 1956). Accepted on 19th April 1958.  
*Coupling screw engaged with one end of one of the spindles and clamping screw at the adjacent end of other spindle.*
59665. Union Carbide Corporation, formerly known as Union Carbide and Carbon Corporation. Treatment of fumes containing suspended solids. (22nd October 1956). Accepted on 19th April 1958.  
*Introducing the flue gas in a reaction zone and passing the flue gas through carbonaceous particles.*
59681. Infilco Incorporated. Apparatus for treating a liquid with a gas. Accepted on 21st April 1958.  
*Comprising a gas contact chamber having a rotor, inlet means for introducing gas and liquid, and a liquid solids separation compartment within said chamber.*
59773. Carrier Corporation. Apparatus for treating air. Accepted on 23rd April 1958.  
*Comprising eliminator for removing entrained liquid particles from airstream and a rotor having plurality of blades included therein.*
59861. Etablissements Neyric. Improvements in or relating to tide-driven turbine installations. Accepted on 19th April 1958.  
*Some of the turbines equipped with blades having concavity in one direction while the remaining in the other direction.*

59895. The British Drug Houses Limited. Improvements in or relating to 6-methyl-3-oxo  $\Delta^5$ -steroids. (26th March 1956). Accepted on 17th April 1958.  
*Converting 3 : 3-ethylenedioxy-  $\Delta^5$ -steroid into 5 $\alpha$  : 6 $\alpha$ -epoxide reacting with methyl organo-metallic reagent regenerating 3 : 3-substituted 5 $\alpha$ -hydroxy-6 $\beta$ -methyl steroid therefrom.*
60776. United Plastics Industries, Inc. Apparatus for embossing thermoplastic film and the like. [Divisional date 26th November 1956]. Accepted on 18th April 1958.  
*Providing means to effect loss of embossing suction by leakage of air from interior of drum over which film is passed.*
61371. Thoma Company G.m.b.H. Suction tube mounting in spinning machines. Accepted on 19th April 1958.  
*The end studs of the suction tubes are so mounted in guide members provided at both sides of the stand that the suction tubes can be moved over an arcuate course downwardly and rearwardly.*
61408. National Malleable and Steel Castings Company. Improvements in or relating to car coupler. Accepted on 19th April 1958.  
*An anti-creep lug extends forwardly from the shaft beyond the opening at one side into close proximity with a lower surface of the chamber.*
- 61590 Metropolitan-Vickers Electrical Company Limited. Improvements relating to electrical turbo generators. (4th September 1956). Accepted on 19th April 1958.  
*Electrical leads connecting the collector rings with the rotor comprise hollow conductors.*
61955. Innocenti Soc. Gen. Per L'Industria Metallurgica E Meccanica. Gear box with constantly meshing gears, more particularly for motor cycles and the like. Accepted on 17th April 1958.  
*Gears idly mounted on splined shaft with a slide capable of sliding in the groove, and a roller in a radial slot in the slide.*
62051. Amagasaki Seitetsu Kabushiki Kaisha. Improvements in and relating to bearings. Accepted on 17th April 1958.  
*A series of small spherical balls arranged in a circle and bearing against the bottom and cylindrical inside surface of a cup-shaped receptacle and a relatively large spherical ball bearing solely on said circle of small balls.*
62052. Amagasaki Seitetsu Kabushiki Kaisha. Improvements in and relating to thrust bearings. Accepted on 17th April 1958.  
*An annular rotating part superposed on an annular stationary part having plurality of cup-shaped recesses with shallow cup-shaped receptacles, which carry small spherical balls arranged in a circle and a large spherical ball bearing on those smaller balls.*
62053. Amagasaki Seitetsu Kabushiki Kaisha. Improvements in and relating to wheel device for transportation purposes. Accepted on 17th April 1958.  
*A cylindrical hollow wheel member having a shaft carried by a yoke member, the said shaft having plurality of cylindrical recesses in the underside thereof which carry cup-shaped bearing members with a series of small spherical balls and a large spherical ball bearing on the said smaller balls.*
62055. Amagasaki Seitetsu Kabushiki Kaisha. Anti-friction bearings for sliding bodies. Accepted on 17th April 1958.  
*Plurality of cup-shaped members disposed on a stationary support, a series of relatively small spherical balls in each of said cup shaped member, and a relatively large spherical ball bearing on each circular row of said small balls.*
62181. Knorr-Bremse G.m.b.H. Quick-action braking valve for air-suction brakes. Accepted on 18th April 1958.  
*Quick-action release and braking valve for an automatic vacuum brake having a brake cylinder, piston, train pipe etc.*
62681. The Metal Box Company of India Limited. Improvements in or relating to the fitting of tins and like containers with handles. Accepted on 23rd April 1958.  
*Two holes pierced into the body of container closed by lugs, the outer ends of said lugs having circumferential groove in which ends of handles may be press fitted.*
63034. John & Joseph Taunton Limited. Improvements in and connected with collapsible lockers. (20th February 1957). Accepted on 17th April 1958.  
*A collapsible locker comprising a front, back and two side panels which panels can be detachably inter engaged.*

**Opposition Proceedings**

(1)

An opposition has been entered by Merck & Co., Inc., to the grant of a patent on application No. 57969 made by Chas. Pfizer & Co., Inc.

(2)

An opposition has been entered by Rodi & Wienenberger Aktiengesellschaft, to the grant of a patent on application No. 59296 made by V. H. Lodaya, V. C. Ajmera and S. A. Ajmera.

**Printed Specifications Published**

A limited number of printed copies of the undernoted specifications are available for sale from Officer-in-Charge, Government of India, Central Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

53161. 53519. 53806. 53867. 53868. 53974. 54069. 54120. 54176.  
 54256. 54526. 54653. 54856. 54876. 54894. 54965. 54967. 54977.  
 55012. 55360. 55363. 55467. 55493. 55511. 55512. 55523. 55610.  
 55754. 55783. 55840. 55955. 56030. 56096. 56118. 56158. 56159.  
 56167. 56240. 56264. 56331. 56376. 56419. 56421. 56547. 56564.  
 56839. 57193. 57453. 57474. 57513. 57927.

**Amendment Proceedings**

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that N. V. Philips' Gloeilampenfabrieken, a Limited Liability Company organized and established under the laws of the Kingdom of the Netherlands, Carrying on business as Manufacturers at Emmasingel 29, Eindhoven, Holland seek leave to amend the figures of the drawings in respect of Patent application No. 58961. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office on payment of the usual charges.

(2)

The amendment proposed by Socony Mobil Oil Company, Inc., in respect of Patent application No. 53848, as advertised in the Gazette of India, Part III, Section 2, dated the 19th January 1957 has been allowed.

(3)

The amendment proposed by Council of Scientific and Industrial Research in respect of Patent application No. 58243 as advertised in the Gazette of India Part III, Section 2, dated the 4th January 1958, has been allowed.

**Renewal Fees Paid**

25188. 26093. 26418. 26451. 27148. 27440. 28862. 30153. 30846.  
 30970. 31373. 32432. 32607. 32932. 34813. 34820. 34932. 35130.  
 35309. 36491. 36601. 36711. 37044. 37349. 37590. 37725. 37772.  
 38006. 38310. 38326. 39628. 39670. 39681. 39726. 39731. 39734.  
 39764. 39781. 39836. 40016. 41334. 41366. 41367. 41376.  
 41386. 41468. 41517. 41652. 42289. 43053. 43056. 43086. 43087.  
 43103. 43139. 43152. 43153. 43218. 43301. 43310. 43324. 43362.  
 43370. 43373. 43384. 43404. 43444. 43449. 43602. 43617. 44983.  
 45085. 45106. 45156. 45203. 45251. 45263. 45342. 45437. 45540.  
 47177. 47180. 47183. 47231. 47240. 47278. 47363. 47402. 47547.  
 47548. 47550. 47563. 47571. 47600. 47623. 47661. 48083. 49331.  
 49395. 49471. 49472. 49506. 49508. 49593. 49638. 49688. 49711.  
 49731. 49762. 49827. 49864. 49933. 49992. 50172. 50660. 50885.  
 51229. 51740. 51779. 51831. 51835. 51860. 51877. 51895. 51896.  
 51897. 51920. 51929. 51959. 51985. 51986. 51995. 51997. 52073.  
 52083. 52140. 52141. 52149. 52185. 52188. 52298. 52301. 52377.  
 52405. 52554. 54304. 54413. 54556. 54872. 54873. 55066. 55067.  
 55425. 55595.
